

Eco Series ECO-SHIELD (SShield__)

SOLID GUTTER PROTECTION

Features

- .027 aluminum
- Highest resistance to debris and foliage
- Built-in front drip edge helps to prevent tiger stripping
- Solid design forces water to flow to the front utilizing capillary action to channel the water into the gutter while debris flows off the gutter
- Maximum debris load

Sweet Gum Maple Oak Dogwood

Capillary Action - the ability of a liquid to flow in narrow spaces without the assistance of external forces like gravity.

Installation

Eco-shield slides under the first tab of shingles, fits on top of gutter, secured by matching zip screws (#8X1/2). End pieces can easily be slit in 2 sections by hand with metal shears and bent down to create the endcap to fully enclose system. No need to purchase extra specialized endcaps like competitor's products.

Availability 5 foot sections— 20 pieces per box (100 feet) for 5" & 6" widths

Colors Available in all standard gutter colors.

Competitor Comparison: E-Z Hydroclean, Gutterlock Elite, Leaf Free, Leaf Proof

Competitive Advantages: Built in drip edge, 5 feet versus 4 feet, durability, ends can be bent down to form endcaps, no need to purchase endcaps
