

Features

- Diamond perforated design to improve strength and rigidity
- Aesthetically pleasing - invisible from ground level
- Made with recycled materials
- Black to match the majority of roof colors and to absorb sunlight to create heat that dries out fallen foliage and any standing moisture in the gutter
- More linear feet per piece installed
- Foliage types include:

Sweet
Gum

Maple

Oak

Dogwood

Installation

Fastened with #8x1/2 zip screws (not included) onto the front lip of the gutter. 6' lengths increase installation efficiency. Recommend fastening every 2 feet with color matched zip screws.

Availability

Ecoguard comes in 6 foot sections—50 pieces per box
